Once again the weather played a part in the IMTT 2008 Schedule as mother nature showed she is not yet ready to give up the wind and snow. As teams from North, South, and Central Illinois battled the elements and chased muskies at Prairie Lake in the Jim Edgar State Fish & Wildlife Area, they found themselves up against mid-thirty degree air temps, rain, intermittent snow, and 20-30mph winds as well as the muskies themselves. At the end of the day, there were two fish caught (35.5" & 33") by the first place team of Bob & Kona Taylor.
